Model # **CODA56**

Quick Install Guide

Cable Modem

Step 1: Set up the Cable Modem

For Comcast XFINITY Users Only:

Download the Xfinity app on your mobile phone to set up and activate your Internet in minutes. Visit **xfinity.com/activate**

If you are having trouble, contact Comcast Xfinity 1 (800) XFINITY (1 (800) 934-6489)

For Non-Xfinity Users or Xfinity Users without a Smartphone:

A   Find your Cable Internet Account number and login information (your email address or username, password) and have it ready for Step 3.

Login Username:

Login Password:

B   If you are replacing a Cable Modem that is currently connected in your home, unplug the old modem and remove it from its current location. Place this new cable modem in the same spot as the previous modem. Otherwise, place the cable modem near a coax and power outlet.

C   Connect a coaxial cable (provided in the box) from the Cable Modem to a Coax Outlet on the wall. Make sure that the cable is tightly connected.

D   Wait until the four LED's are Solid **Green** or **Blue**. This may take up to 2-3 minutes.

If not, please check that the coax cables are tightly connected. If so, please call your Internet Service Provider. It is possible that your Internet service has not been activated.

Step 2: Configure your Modem

A   Activate your new cable modem by following your ISP activation URL (See table below.) You will need the CM MAC address from the label as part of the activation process.

CM MAC Address

Internet Provider	Activation URL	Activation Contact
Cox	cox.com/activate	1 (888) 556-1193
Spectrum	activate.spectrum.net	1 (833) 267-6094
Comcast	N/A	1 (800) XFINITY

For other supported ISPs, please go to us.hitrontech.com/coda56

Step 3: Connect to Your Home Network

A   Connect the Orange Ethernet Cable into the Orange Ethernet Port on the back of the Cable Modem and the other end to the WAN Ethernet Port on your previously installed Router. If you do not have a router, connect the Ethernet cable to the Ethernet port on your computer.

Coax

Power

Ethernet

Router
purchased separately
Step 4: Test Connection

A   Make sure that your computer, tablet or cell phone is turned ON and is connected to your Router or Cable Modem via WiFi or Ethernet cable.

B   Open a web browser. Your Cable Internet Service Provider may automatically redirect the browser to a special website. If not, please go to www.google.com to prove that your new cable modem is successfully set up.

LEDs
Power...**Green** when powered on

Upstream...Solid **Green** or **Blue** when connected to an upstream channel

Downstream...Solid **Green** or **Blue** when connected to a downstream channel

Online...**Green** when connected to your Internet Service Provider
